Welcome

PhotobookSHOP

Thank you for choosing the PhotobookShop to capture your memories! As part of your membership you will receive a series of emails that will guide you through your journey to creating a beautiful, personalized photobook or calendar. You will be the first to hear about our exclusive promotions and deals, as well as receiving up to date knowledge on our design and feature updates.

Download the latest version of our FREE design software. It is an interactive and user-friendly software which we hope you find easy and enjoyable to use.

Once you have downloaded the software, you are well on your way to creating your photobook or calendar. Need help with your project? To gain a more comprehensive understanding of our software, please download and read our Getting Started Guide.

GETTING STARTED *GUIDE*

"OUR TIPS"

Make sure that your photos are at least 300 dpi and not over 600 dpi to ensure picture quality printing.

Be sure to regularly check for updates to give you access to our latest templates and designs.

We suggest you download Google Chrome and set it as your default internet browser. This program is the most compatible with our software.

To avoid any extra charge, ensure that you select the size and pages that you are entitled to as per your voucher.

Ensure that you make use of our support line – we are here to help!

You are now ready to download our designer and begin creating!
